

AMERICAN EMBASSY  
VIENNA

telex.  
From Mr. Laszlo,

I received this  
morning the wonderful  
photographs of the  
non-undraped port-  
raits of Leo XIII  
and Cardinal Rampolla.  
I am immediately

having them framed and  
shall value them  
as much as I admire  
them.

My son-in-law Marquis  
de Chambon comes to  
Neiva for a week or  
two and by that  
one of these days I  
may bring him to you

Atelier; asking you  
on the way if it be con-  
venient for you.  
M. de Chambon admired  
so intensely your  
works in the 1902 Salon  
the Government is so  
that he has never failed  
to express his hope to  
see your other works  
and has continually spoken

of it. kept again  
in since thanks for  
the photographs and  
for Mrs Lutz and you  
with my best wishes  
to New Year -

Sincerely yours  
B. Hann
