Dear Mr de Laszlo

I have had no correspondence with Jenkins other than that you have seen. The last two letters he quotes I have left unanswered. They were, in my opinion, sufficiently answered by your letter of Sept 12th and, as I told Inghen long ago, I absolutely decline to involve myself in correspondence with Jenkins.

I am sorry you are being worried by him. If I may offer this advice, I should again simply refer him to your letter of Sept 12 and say that you have nothing more to add & decline further correspondence.

You may be interested to hear that I have just been appointed house governor & Secretary to King George's (Military) Hospital

With kindest compliments of the Season

Yours very truly
Orsley Williams
