My dear Lashby July 2nd 1911

I have just received
a letter from Aunt Munday
inviting me to visit Vienna.
I have written explaining
that owing to my own
share in Venice Exhibition
this year I have no
pardon but that if
"Hilfsvereinschaft der
Bildenden Künstler" will

permit me I shall be pleased to
send next year.

If you are writing to the Association
I would consider it a favour if
you would kindly convey my
respects and say that I much
appreciate the complement paid
me through his Excellency the Ambassador.

I am sorry to know that Count Munderff's
health is not satisfactory and hope
he may soon be quite well.

Here under chandeliers, electric and
warm sun one feels far
removed from influenza and
hundred troubles.
