My dear Dr Laszlo

It is good of you to send me the Revue de
l'Art: this, with the German book gives me a very
complete idea of your work.

I am glad to find that the Adelphi book
pleases you - of course the whole Quarter is full
of interest and you should see some of the rooms with
painted ceilings: perhaps you will come and see us in
the summer and see our beautiful view - we could then
show you round.

I am glad to welcome you as a member of
the Cobden Club.

Yours sincerely
John Lubbock
