My dear Mr. Langlo,

I enclose particulars
of the East Sussex Arts Club;
they have elected me President.

The club is the only art
society in Hastings & they hold
an exhibition there annually -
I am very wishful to stimulate
interest in this society both
locally & elsewhere & with this
view hope to induce some

well known artists to contribute
works to the exhibition to be
held in April -

A large proportion of the members
are unfortunately amateurs,
but there is a good sprinkling
of them, and with the help of
pictures by eminent artists
we hope to make the exhibition
a success.

This is only part of a scheme
to wake up sufficient interest
to warrant the corporation in
building a municipal art gallery,
with a permanent collection of

& works on loan or bequeathed
& an annual exhibition of
works by Sussex Artists & others.
It would I feel help us very
much if we may add your
name to the list of Patrons
with a promise to show some
picture here in the Spring -

I hope you will not mind
my asking this favour of you,
& I shall quite understand
if you would rather not be
mixed up in such a small
society as this is.

I much hope you are keeping
well and not working too

hard. I read this morning
of the fog in London yesterday,
it was quite clear here & I
had a good day at the picture
of H. R. H. Princess Louise -
My wife joins in kindest
remembrances to Mrs de Laszlo
& myself.

Ever yours.

Edward Tatung.

I hope all yours well at the
R.B.A.
