

Quensel.

July 6 th 1932.

My dear,most venerated de Laszlo,

I do hope You have got my letter from India telling You all about my delightful experiences with the Willingdons, who have been so very kind to me! I came home by aeroplane from Java direct to Sweden, a marvellous trip, though terrible sandstorms in Persia, which forced us to go down near Basra for 48 hours. There I had the good luck to meet such a nice and interesting man as Lord Lothian, just like myself on his way home by aeroplane and we had most interesting discussions about India. What a problem! I take the pleasure to enclose today my article about You which recently appeared in a big daily Swedish paper and I hope You got the Neue Freie Presse with my article about You that I sent You some months ago?

I just long to see You again and tell You my adventures in the Orient, really good fun some of them. For a week I travelled with Chaplin in Java and Bali, and in Indochina I was with the Belgian Royal party. I expect to go down to Coburg for the wedding of our prince Gustaf Adolf with the Coburg-princess and after the wedding, which is fixed for oktober 20 th, I could easily fly over to Paris and London. You were so kind as to tell me, to let You know a few months ahead when next I could come to see You, because of the sketch, which,

as You know, is The dream of my life! Well I could join You anywhere in Europe in end of oktober or first half of november or even if it was absolutely necessary in beginning of oktober, but I have to lecture in Sweden on the 2 d and arrive in Coburg latest the 12 th of oktober. Do have the infinite kindness and let me know when it possibly might suit You to receive me and paint a picture, I shall do what I can that it wont be a loss for You but that we can talk over together.

My permanent adress for letters is Stockholm Kommendörsgatan 35.

At present I am staying here in the country with my English mother in law in order to write my ~~lect~~ lectures, articles and book. Am working 12-14 hours a day at my type writer! In a couple of weeks I shall be going down to the seaside for a short rest with my little girl.

Hoping that all is well with Yourself and Your dear Family I beg You to believe me Yours
most sincerely

Annie Quensel

Have You begun Your big warpicture yet?
Kindly remember me to Mrs de Laszlò!
