My dear Nicol

I stayed this weekend with my friend Sir Merrick Burrell, who has a few very fine pictures, amongst others a splendid Franz Hals.

He is delivering to you today two Mabuse pictures which you will find need very thorough restoring, particularly one of them. I also advised him to ask you to get the right frames, Gothic, black and gold, for these pictures, and I hope you will look after this too. I am sure you will be interested to do these pictures.

We would like you to come along and dine with us one evening soon. We have just got back from Italy.

Ever yours,
