Mme la Comtesse de Mun.

My dear friend.

I received here your nice letter, and the charming response to Mr Brooks. you've sent me - -

You must have had a lovely time in Italy -
How I would have appreciated to be in Rome with you - ! and to study all ancient Rome -
We must do that once - !

What I did was more prosaic - I went for 15 days at Crans / Pierre near Montana - charming place - splendid air - in a magnificent view - and came down here after - . I am going back to Paris in 2 days - And I do hope to see you there very soon - .

Your picture - in connection with the great war will be so interesting - splendid I feel sure -
Certainly I shall give you my sketch - and would love to come over to London -

Anna and de prauant has not been very well

in water - but looked much better when I left for
Switzerland -

I heard with great pleasure that your son was
going to be married - and send you and to your
dear wife my best congratulations - I wish my
2 boys would do the same!

Thank you for sending me the little Patricia's
photo - it is a lovely picture -

Looking forward to see you
believe me

Yours very affect.
