NALDERA,
BROADSTAIRS.

1000 francs - it is an Italian
pattern late Empire - a tatar crown
& very fine. I would give it with
pleasure as I have no money ever to
support these splendid funds for
the sick & wounded. but there would
be no one giving it - if the English people
only think it is "old cotton" & would
not buy it - is there! What do you
think? Some day I want to ask
you how much is it - to have
those divine sketches that you

do on the canvas ground, like
the masterpieces of the beautiful
young men in Kharko, because it
would be the joy of my old
age to have one of each of my
daughters, if someday you
would do them for me? Would
you? They have not good faces
as you know. Will you tell
me like a dear, & then I will
work & save up, & that will
be my great pleasure, for some

future time. My new book is
interesting me it is the exposition
of force & will overcoming even
fate; it is not for Jews, fills!!

Well now I have written you a
volume! If for any reason you
want the picture of that wicked
creature in blue that you denied
with, for your spring exhibition, I
could come up for a week before
the 20th. From 20 to end of
months I must work at the book

Corrections from 20th onward.

If not, then you can do it any
time in March. & I will try & conjure
the spirit of some former life back
again to make it effective because
this would be no good - would
it-!!!?
